

DST-04 BT & DST-08 BT

DST-08 BT (8 SLOTS/SHELVES) DST-04 BT (4 SLOTS/SHELVES)

SMARTPHONE CABINET WITH ULTRASONIC JAMMERS AND BLUETOOTH JAMMERS

Most shielded cases simply prevent data transmission to the outside. However, if there is a Trojan-infected device set to capture ambient audio or to record audio directly to the phone's memory, or if the phone recorder is deliberately activated, simple signal shielding will not be enough to prevent information leakage.

For this reason, inside our case, each slot (shelf) has two ultrasonic transmitters capable of completely inhibiting the microphones of cell phones. Furthermore, thanks to the integrated Bluetooth jammers, any headphones or smartwatches connected to the smartphones are automatically disconnected, making it impossible for a Trojan-infected phone to capture ambient audio from the headphones or smartwatches to which it may be connected.

| SPECIFICATIONS | DST-04 BT | DST-08 BT |
|---------------------|---|--|
| Power supply | Continuous power supply / battery | Continuous power supply / battery |
| Battery life | About 6 hours if not powered by charger | Over 7 hours if not powered by charger |
| Capacity | 4 smartphones | 8 smartphones |
| Dimensions | 14x15x24 cm | 28x15x24 cm |
| Weight | 1,7 Kg | 2,55 Kg |

DST-04 BT

DST-08 BT

These products are handcrafted in Italy.
They have been tested with the help of forensic-level filtering software.

- ▶ The cell phones placed inside are not able to record any type of sound outside the box nor to connect to external headphones or smartwatches.
- ▶ Operation from continuous power supply or battery.
- ▶ A LED indicator warns of the correct functioning of the jammers.
- ▶ Available in 4 phone version (DST-04 BT) or 8 phone version (DST-08 BT).

ATTENTION: if the Bluetooth jammer (BT) is activated in addition to the ultrasonic jammers (US), devices in the immediate vicinity may lose the 2.4 GHz Wi-Fi and/or Bluetooth connection.
